

How will I benefit from fiber internet access? Our sole reason for offering high-speed internet services is to meet the needs of members like you. With FIBER internet you will no longer have to rely on DSL, cellular wireless or satellite internet to stay connected online. Stream high-definition media smoothly and quickly on multiple devices – such as cell phones, computers and set top streaming devices simultaneously in your home or business. You will have the data capacity to download and upload data such as files, photos and videos at super-fast speeds giving you access to the latest technological advancements and applications. Our world class ‘Fiber to the Home’ service will be affordable, reliable, and backed by your trusted local co-op HREA.
